TECHNICAL SKILLS

- **Languages** : JavaScript/TypeScript, C++ , SQL, Java
 - **Frontend Technologies** : React, Next.js, Tailwind CSS, Figma
 - **Backend Technologies** : Node.js, Express, MongoDB , RESTful APIs , Neo4j GraphDB
 - **General** : Data Structures, Algorithms, Git, Agile, Scrum, Jira, Object oriented programming
-

WORK EXPERIENCE

Software Development Engineer , Byteridge

June 2023 - Present

- **UI Development**: Translated intricate Figma wireframes into responsive React components.
- **Optimized web performance**: Refactored existing code and streamlined project workflows, enhancing overall efficiency by 25%.
- **Enhanced state management**: Implemented React hooks and Redux to streamline data flow and reduce code complexity,
- **Employee performance tracking** : Developed UI for CTS , enabling 150+ employees to track their quarterly KPIs resulting in a 30% increase in engagement and a 20% reduction in manual errors

Software Development Engineer Intern , Byteridge

Feb 2023 - June 2023

- **Enhanced mentorship coordination**: Built a mentee-mentor app, enabling 200+ mentees to book mentors and receive guidance, improving efficiency by 40%.
- **Led development efforts**: Managed a team of 5 to add real-time scheduling and communication, reducing response times by 30%.
- **Improved user experience**: Refactored UI, increasing usability and user satisfaction by 25%.

PROJECTS

HungerBuddy -A Restaurent Website | ReactJS, Redux | [Live Demo](#)

- HungerBuddy is a Reponsive website where users can order food items, add into cart list and order food instantly.
- Implemented a backup function that stores cart items data in local storage, ensuring data is not lost even if the tab is closed accidentally .
- Developed a feature that generates an instant invoice for orders, including a list of all items and the total bill for payment.

Travel App: A Platform for Sharing Memories | ReactJS, Node.js , Express , MongoDB

- Designed a full-stack MERN App for creating and managing personal travel stories with features like user authentication, image uploads, and date selection.
- Built a secure backend architecture with JWT-based authentication, MongoDB for data storage, and REST APIs for CRUD operations.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Aug 2019 - June 2023

I . K Gujal Punjab Technical University - 8.2 cgpa
